

Training & Exercise Bulletin

What's new at CEEMA?

National Emergency Management Basic Academy

CEEMA is looking to bring the Basic Academy to Maine for the first time. We are assessing interest in the region to inform our planning process. Below is a description of the Basic Academy for more details and a survey which we ask you to complete if you would be interested in attending. Please note, there is no date or location set for the Academy, we are only assessing general interest at this time.

Sharing Training and Exercise with Schools

CEEMA offers a variety of services to schools for administration, faculty, and students. These services include emergency planning, training, and exercises. Feel free to share these bulletins with your school contacts, have them opt into the bulletin, or share my contact information!
